

Circular Letter No. 51.

November 4, 1909.

To Supervising Principals:--

In order that the General Meetings held during the year in each of the Districts throughout the Island (see Circular Letter No. 48) may be visited as regularly as conditions will permit by the General Superintendents and others from the Department; the accompanying schedule has been prepared.

The dates given are those of different Saturdays; but in some few cases the meetings should occur on Friday evenings, as indicated, in order that the Department's representative may attend meetings the next day in adjacent districts.

It is hoped that in all cases the Elementary, Intermediate and Advanced classes in English will meet for a brief session preceding the general meeting, in order that whoever represents the Department may discuss with those enrolled in these classes some matters of special interest to them.

Graduates of the two-year course in the Normal Department at Río Piedras may be enrolled in the Advanced Course with those holding the English Graded license.

The work of the Intermediate Course will be found especially valuable for all who are preparing either for the Graded or for the English Graded license.

Respectfully,

EDWIN G. DEXTER
Commissioner of Education
